Prepare for an international career at Sydney’s international university.

Students from more than 110 countries choose to launch their global careers from Macquarie University. Our internationally-focused postgraduate programs in the Faculty of Arts are flexible and practical, preparing you for a career unlimited by borders.

+ **Understand your world.** You will develop an understanding of the political, social, economic and legal systems operating internationally, exploring specific regions and the role of international organisations.

+ **Focus on your area of interest.** Macquarie University’s programs are flexible, so you can focus on the subjects that suit you and your future career. Our double degree options allow you to expand your knowledge in the direction you choose.

+ **Benefit from an international community.** Almost a third of our student body is made up of international students, giving you the opportunity to develop your cross-cultural skills and create a professional network with people from all over the world.

+ **Expand your skills.** Our international relations program provides an opportunity for you to complete a research project as part of your degree.

+ **Gain real-world experience through our internship program.** Gain academic credit whilst developing your knowledge and skills in a professional environment such as an embassy, government department or non-government organisation (NGO).
Xinyuan Liu | China
International Trade Internship at Australia China Business Council

“I would definitely encourage other students to do the internship program. Through real-life experiences, they will find their hidden potential. Internships enrich your study life while preparing you for your future career.”
Master of International Communication

This degree draws on a variety of fields of study, including media communication, international relations and cultural studies.

WHO SHOULD APPLY
This degree is suitable for people who wish to work in international organisations. A mixture of units provides you with specialised knowledge and skills in the field of international communication.

César Abraham Castañeda Valencia | Mexico

“I had previously studied in Australia but I always knew wanted to go to Macquarie because of its prestige. Everything at Macquarie has exceeded my expectations - I knew I would receive the best but it’s been incredible. When I finish my masters I would like to work for educational television and media. I want to become a promoter of culture and art in my home country and internationally.”

Master of International Relations

ALSO OFFERED AS A POSTGRADUATE DIPLOMA AND POSTGRADUATE CERTIFICATE, AND BY DISTANCE

The Master of International Relations is designed to develop an understanding of the institutions, issues and political, economic and legal processes of the international system. There is an emphasis on competing explanations of how these processes and institutions operate. In addition, it offers detailed study of these institutions, issues and processes in specific regions of the world.

WHO SHOULD APPLY
This degree is suitable for students who have completed a first degree and intend to work in a public or private organisation which has a strong international focus. The degree may also provide a platform for students who wish to proceed to higher research degrees.

WHAT YOU CAN STUDY
• Globalisation and the North–South Relationship
• International Internship Program
• International Law and Institutions
• International Political Economy
• International Politics and Economics of East Asia and the Pacific
• International Relations of the Middle East
• International Security
• The Asian-Pacific Region and Australia
• The European Union and the International System
• The International System
• The Politics of International Human Rights Law
• The USA in the International System
• Theories of International Relations

CAREER OPPORTUNITIES
Career paths for our graduates are varied, with some joining the diplomatic service of their home countries, and others working with the United Nations or the increasing number of international non-government organisations, multinational corporations and media organisations.

KEY FEATURES
• Develops understanding of the political, social, economic and legal processes and institutions of the international system
• Internship opportunities to eligible students as an intern in an embassy, NGO or an international organisation
• Prepares students for higher level tertiary study and research through the completion of a research project
• Can be combined with the Master of International Communications, the Master of International Trade and Commerce Law or the Master of Translating and Interpreting (see page 6)

Robert Hollander | The Netherlands

“I chose Macquarie because it provides a high quality education in my subject area. Its location and cultural diversity also make it a great ‘door’ to doing business in Asia. My experience so far has been great. The Australian culture provides a professional attitude in terms of knowledge and performance, but with a certain degree of social activity and the idea that learning is fun.”

Who you will learn from

Professor Martina Möllering
Head, Department of International Studies

Professor Möllering has received a national citation for her innovative approaches to technology-enhanced language learning. Her research areas include corpus-based approaches to language teaching and computer-mediated communication in second language acquisition.

“Our department likes to think of language as a window into another culture - not just a skill.”

Ulrike Wackernagel | Germany
Master of International Relations with Master of International Business

“I knew I wanted to study outside of Germany and in an English speaking country. I chose Macquarie University because of their double degree programs. That sold it for me! The Master of International Business pleases my parents and the Master of International Relations sounded really interesting. Even though Macquarie’s campus is big, the postgraduate classes are small. The professors learn your name and there is a lot of interaction between professors and students. The campus is also very international. I don’t have to worry about being the odd one out because Macquarie is a community of international students. It makes it very easy to meet others and have a sense of belonging.”

Gabriel Torres Brown, Master of International Relations
Chief of Communications, Pfizer Colombia

“La Sabana University, my home university in Colombia, has a Dual Degree Program with Macquarie and I always wanted to study International Relations. To do so in an international country like Australia made the offer look as if it were meant to be - and it was.

I am certain that my Macquarie degree opened every professional door and opportunity that I’ve had so far. In a country such as mine the ‘international’ aspect is very valuable.”

Graduate profile
About Macquarie University

At Macquarie, you will join a welcoming community of 35,000 students with more than 12,000 international students from over 110 countries. Ranked within the top ten universities in Australia (Shanghai Jiaotong University Rankings, 2011), Macquarie University is recognised for its innovative curriculum, high-quality teaching, world-leading research and green campus environment.

Campus location and facilities

Macquarie University’s North Ryde campus is uniquely located in parklands only 30 minutes from Sydney’s central business district. On campus you will find modern facilities, including a state-of-the-art Sport and Aquatic Centre, private teaching hospital, museums and hotels.

In 2011 we opened our new multi-million dollar library – a learning space like no other in Australia, featuring study lounges, a robotic document retrieval system and a cafe.

The Macquarie Centre shopping complex is on our doorstep and we have our own train station on campus, providing a direct rail link to the city centre.

Quality student accommodation is available both on and off-campus.

Enhance your degree

Macquarie University offers a range of leadership and career building programs to help students get an edge in the global job market.

The Global Leadership Program (GLP) allows students to develop leadership and intercultural skills through studying, volunteering and participating in experiences both in Australia and overseas.

The Graduate Development Program (GDP) offers a personalised approach to building independent career skills, combining an individual development plan with one-on-one consultations, weekly workshops and industry speaker events.

Macquarie also offers an internship program and one of the most extensive international exchange programs of any Australian university.
