From the Vice-Chancellor

There are many good reasons why you should be considering Macquarie University.

Macquarie University is ranked among the top two per cent of universities in the world. Our reputation is constantly rising – in August it was announced that Macquarie had moved up the Academic Ranking of World Universities for the fifth consecutive year.

Over the past three years, Macquarie University has recruited many leading academic staff so that our students are learning from teachers who are among the best in their field. Our degrees are focused to respond to a rapidly changing global environment. This means you will not only receive an education that is specialised and well-regarded by employers, but you will also gain skills, experience and knowledge beyond the classroom that will benefit you in your chosen career.

We have recently invested in many excellent facilities on our beautiful, green campus. In mid-2011 we opened our new library, which provides the most advanced learning facilities in the country. Our Sport and Aquatic Centre, which houses a new gym and two swimming pools, is so good that many professional Australian sporting teams use it. Our science laboratories have some of the most advanced teaching facilities available and our recent acquisition of the former Australian Film, Television and Radio School building enables our music, media and performing arts students to access outstanding resources and facilities.

As an international student, you will be supported by a comprehensive and dedicated range of services and support programs to help you throughout your time at Macquarie and beyond. Our international student scholarship scheme is among the most generous in the country.

If you don’t find all the information you need in this booklet, be sure to visit our website or contact our helpful staff.

I look forward to welcoming you to Macquarie.

Professor Steven Schwartz
Vice-Chancellor

About this guide
This guide is divided into three sections, to help you find the information you need.

The first section, **The Macquarie experience**, shows you what it is like to be a student at Macquarie University Sydney. You will learn about our campus and the different services and extracurricular programs we offer international students.

In **What you can study**, you will find an introduction to the university’s faculties and detailed information about the different courses on offer, including entry requirements and fees.

The third section, **Join us at Macquarie**, contains everything you need to know about applying to Macquarie, including English language requirements and scholarship options.
Macquarie University is one of Australia’s leading universities. With our innovative curriculum, quality teaching and modern campus facilities, studying at Macquarie will give you a highly-regarded degree with the support of the Macquarie International team from application to graduation.

**World-class reputation**
Macquarie is ranked among the top two percent of universities in the world. We are among Australia’s top ten universities, and the top 40 in the Asia-Pacific region according to the international Shanghai Jiao Tong University Academic Rankings of Universities, 2011.

**Graduate outcomes**
Macquarie’s graduates are highly sought-after and our graduate starting salaries have been amongst the highest in Australia for over a decade (Good Universities Guide 1998–2011). At Macquarie, you will have the opportunity to attain real-world experience relevant to your field of study, with access to internships with our industry partners and a range of career-building programs.

**An enviable location**
Our main North Ryde campus is located just 15 kilometres (30 minutes drive) north-west of Sydney’s city centre. Transport to the campus is easy, with an on-campus train station providing a direct link to the city. We also offer courses at our Macquarie City Campus (see page 62).

**Unique, state-of-the-art campus**
Set on 126 hectares of peaceful parkland, Macquarie boasts a range of first-class facilities including a new state-of-the-art library, teaching and research spaces with the latest technology, the only private teaching hospital to be located on an Australian university campus and an impressive Sport and Aquatic centre (see page 6).

**Diverse student community**
With a five star rating for the cultural diversity of our student body (Good Universities Guide 2011), Macquarie offers a safe, welcoming and friendly environment for international students. Students from over 120 countries choose to study with us, knowing that their culture and customs will be not just respected, but celebrated.

**Research excellence**
Macquarie has long been known for its research excellence and is a world-leader for research in biological, Earth, environmental and physical sciences, as well as cognitive sciences and psychology. Based on data from the Australian Government’s Excellence in Research for Australia results in 2011, 80 percent of Macquarie’s research activity is judged to be at world-standard or higher. Our focus on research means you will learn from experts who are among the best in their fields. The university’s research is also incorporated into our curriculum, ensuring you are taught based on the latest knowledge and research developments.

**Dedicated support throughout your journey**
The University provides a comprehensive support network for our international students during their study, with a dedicated International Student Services (ISS) team offering assistance and guidance on a range of issues. After graduation, you will join over 120,000 alumni in a life-long relationship with Macquarie University.
Why I chose Macquarie

“I chose Macquarie because of its international reputation. In all aspects, Macquarie is a good university. It’s big, close to the city, yet still peaceful. If you want to make your name in the corporate world, come to Macquarie.”

Utkarsh Saxena, India
Accounting

“I chose Macquarie because it provides a high quality education in my subject area. Its location and cultural diversity also make it a great ‘door’ to doing business in Asia.”

Robert Hollander, Netherlands
International Relations

Living and studying in Sydney

The largest city in Australia, Sydney is a hub of international business and boasts some of the world’s most famous attractions. With its multicultural population and world-class cuisine, festivals and events, Sydney offers a fantastic lifestyle for students looking to balance work and play.

Weather and climate
The climate in Sydney is temperate, which means you can enjoy outdoor activities across our city all year round. The wettest months are March and May; the coldest month is July and the hottest months are January and February.

Cost of living in Sydney
Your budget will depend on the lifestyle you choose to lead (eating out or self-catering, living on or off campus, owning a car or taking public transport etc).

Generally you should allow between A$18,000 and A$21,000 per year for your living expenses. You should also factor in Overseas Student Health Cover (OSHC) fees for the duration of your degree. See page 66 for a table of OSHC fees.

Want to know more about the cost of living in Sydney? [Link](www.international.mq.edu.au/macquarie/sydney/livingcosts)

Making the move to Sydney
As an international student, you will be offered assistance with accommodation and orientation from our International Student Services team. For students living on campus, we can also organise airport pickup when you arrive in Sydney.

A great lifestyle
“There’s no doubt that there’s a good balance between work and play in Australia. The culture is really relaxed and the people are warm. At university, students are able to meet each other in all the social groups and clubs, but still find sufficient time for studying.”

Laavania Sivasanggran, Malaysia
Accounting and Applied Finance

Take a day trip to beautiful Manly Beach – learn to surf, or enjoy an ice cream as you stroll along Manly Corso.

Enjoy the world-famous New Year’s Eve fireworks on Sydney Harbour.
Macquarie University’s North Ryde campus is uniquely located in peaceful parklands just 15 kilometers from Sydney’s city centre – just 30 minutes by car or via direct rail link from our campus train station.

A great location

“The campus here is beautiful. There are lots of nice places to read and relax while you study. Being away from the city means you are really able to concentrate while on campus, without distractions.”

Viridiana Gonzalez, Mexico Marketing

Macquarie students have the advantage of attending university in the heart of Sydney’s north-west high-technology corridor. Our location has allowed us to establish close relationships with some of the world’s most successful companies, and many are located in the University’s Research Park. This creates a truly collaborative environment, which translates into enhanced internship opportunities and greater exposure to the job market prior to graduation.
Our first class facilities

Our North Ryde campus blends a beautiful natural environment with cutting-edge spaces for teaching, learning, research and recreation.

State-of-the-art media facilities
Housed in the former Australian Film, Television and Radio School, the Department of Media, Music, Communication and Cultural Studies provides advanced production spaces for music, radio, film and digital media, enabling students to learn using the same technologies as used by industry professionals.

Digital laboratories
Through the application of digital technology, our teaching laboratories offer Science students a world-class, highly interactive, stimulating and conceptual learning environment.

Sport and Aquatic Centre
Macquarie has some of the most modern sporting facilities of any university in Australia. Our Sport and Aquatic Centre offers a heated outdoor 50m swimming pool, a 25m heated indoor swimming pool, gym and group fitness studios, squash courts, a basketball hall, badminton courts and a martial arts area.

Teaching spaces
Our teaching spaces include 13 large theatres, 100 specialist teaching rooms (including laboratories) and 82 other classrooms.
Library
Opened in 2011, Macquarie’s new library is like no other in Australia.

Built over five levels, the library features learning lounges, quiet study areas, presentation practice rooms, Australia’s first automated document storage retrieval system and a café.

As a Macquarie student, you will have access to a wide range of specialist research collections, general study materials, and access to online journals, books and newspaper articles.

Getting to campus
In 2009, we became the first university in Australia to have its own train station on campus, with a direct rail link to the city. More than 20 daily bus routes connect Macquarie to the city, beaches and outer suburbs.
Life on campus

University isn’t just about classrooms and exams. It’s also about making new friends and enjoying new experiences. At Macquarie, everything you need to study, live and play is right on campus, or nearby.

Campus Hub

Completely re-furbished in 2011, Macquarie’s Campus Hub is the heart of university life. Centrally located, it offers a wide variety of food outlets, spaces to eat and socialise, as well as conference facilities and meeting spaces.

Day-to-day necessities

• banking facilities including seven automatic teller machines (ATMs)
• Multi-faith Prayer Room with facilities for men and women
• Religious congregation facilities in close proximity to the University
• a non-denominational community church
• on-campus childcare facilities – Banksia Cottage, Gumnut Cottage and Mia Mia

Wellbeing

• doctor
• chiropractor
• pharmacy
• physiotherapist
• free and confidential counselling, welfare and disability services

Lifestyle, food and shopping

• diverse range of food and beverage options, including cafés, restaurants and coffee carts, offering local and international cuisine
• a Co-op Bookshop and Next Read Second Hand Bookshop
• Daily Market, stocking Asian and halal foods and snacks
• STA Travel Agency and Campus Travel
• The Shop, supplying stationery, newspapers, magazines, calling cards, food and beverage items and the official Macquarie University merchandise range
• The Spot, providing postal and fax services, stamps, envelopes, locker hire, academic dress hire and sale and general information
• two hotels
• art gallery and museums
• sculpture park
• theatre

The Macquarie Centre shopping complex, one of the largest in Sydney, is conveniently located adjacent to the University. It features over 270 specialty shops, a multiplex cinema and two major supermarkets open seven days a week.

Want to know more about places to eat, drink, shop and play on campus?
www.campuslife.mq.edu.au
Monday
Mondays are one of my two big uni days. I’m either in class or in the library (page 7), studying and enjoying the wireless internet access.

Tuesday
I work at home on assignments, or depending on what week it is I might be working a bit as a subcontractor to a construction company in North Sydney.

Wednesday
My other big uni day! I get a break in my timetable in the middle of the day so I usually go to the gym.

Thursday
My day off in the middle of the week! I’m either out having a coffee with friends or exploring Sydney.

Friday
This is the day where I’m at home going through the week’s lectures and any other uni-related tasks. Then when the night comes, out we go to explore the city!

Saturday
Work, work, work. I work in sales, but if I get some time off I work on developing iPhone applications at home.

Sunday
I prepare for the week to come, and get some final study done before the week starts again!

Safety on campus
At Macquarie University, student safety and wellbeing is one of our top priorities.

As part of your orientation you will receive information on how to ensure your personal safety, as well as details on our 24-hour security service and a 24-hour student assistance and enquiry line.

Help points are available across campus, which have a direct line to our security service. A free night time shuttle bus service for staff and students operates during the sessions and covers the entire campus (car parks, library, bus and train interchanges, on-campus housing and the Sport and Aquatic Centre).

Members of staff from the International Student Service (ISS) are also available to advise on personal safety, should you require more help and support.

Get involved with university life
Join a Student Group
Macquarie has over 130 clubs, societies and collectives and more than 15 sport clubs. Joining is a great way for you to meet new people on campus and develop special interests and skills. There are groups representing study areas (for example law, actuarial studies, chiropractic and psychology), all major religions; performing arts (such as drama, film and debating), political and social groups.

Almost every major nationality on campus has its own group including Indonesian, Turkish, Korean, Greek, Vietnamese and Japanese, to name a few.

Want to know more about our Student Groups?
www.campuslife.mq.edu.au/studentgroups

Keep active
If you want to get involved in sport, try out a social sport competition or consider joining a swimming squad or a rowing program. High Performance Sport is also available to those wanting to achieve sporting excellence.

Want to know more about sport on campus?
www.campuslife.mq.edu.au/sport
How we support our students

Adjusting to university life in Australia is exciting and sometimes challenging. Our dedicated International Student Services (ISS) team provides comprehensive support for our international students, as well as social activities and events to help connect you with new friends.

Did you know?
The Good Universities Guide has given Macquarie University a 5-star rating for the cultural diversity of our students

ISS can help you with almost any enquiry – visa information, fees, social activities, study skills referrals and personal welfare.

You can visit the Macquarie International Front Desk to make an enquiry with our staff during normal business hours, or contact an ISS Adviser by email.

Macquarie University has a 24-hour student assistance number and general helpline for all enrolled students, which is given to students during the orientation period. See page 9 for further information about security on campus.

Buddy program

Coordinated by the ISS team, the Buddy Program helps new students discover Macquarie’s facilities and services during arrival, orientation and beyond.

Buddies

“International students can be faced with challenges in adjusting to the Australian lifestyle and education system. The buddy program is an excellent way to build up a great social network for students and gives them a chance to explore Sydney and attend events like the Royal Easter Show. “Being a buddy gives me a great sense of satisfaction by helping other students with the difficulties I had once faced. I enjoy being a positive influence in someone’s life.”

Mayank Kedia, India (far left)

Our student services staff

Sinead O’Halloran is an Administrative Assistant for International Student Services. She organises regular social events and activities throughout the year for local and international students.

“For students living in a foreign country, friends become a very important support network. By joining our regular social events, international students have the opportunity to have fun and make new friends from all over the world, including local Australian students. It’s a time when all students can take a break from study to catch up with each other and at the same time expand their networks. University life is not only about academic studies – getting involved beyond the classroom will open other doors and provide a richer experience.”

Want to know more about our International Student Services?
www.international.mq.edu.au/studentservices
Orientation
Our orientation program helps you get started at university, with essential information for life in Sydney and study at Macquarie. It is held the week before classes start (check dates on page 3) and is a great way for you to meet new people and ask the ISS team any questions that you might have.

Certain parts of the program are compulsory for all international students, with optional activities such as an Aussie Getaway weekend trip and various day trips around Sydney.

iClub
The Macquarie International Social Club, ‘iClub’, is also facilitated by ISS, with the assistance of student volunteers. iClub hosts regular social and cultural events for its members, from movie nights to multicultural cuisine events and ‘Amazing Race’ on- and off-campus challenges.

Want to know more about iClub?
www.international.mq.edu.au/iCLUB

Parents Group
The Macquarie University Parents Group is a support network designed to bring the families of Macquarie students and members of the local community together. Free events are hosted by Macquarie International Student Services each month and include presentations from industry professionals, picnics, sports and music activities, story time and celebrations for events such as birthdays and Christmas.

Want to know more about Parents Group?
www.international.mq.edu.au/parentsgroup

Study skills programs
The Study Skills Support Unit provides academic and language enhancement support through individual consultations, workshops and online resources.

Want to know more about study skills support?
www.mq.edu.au/studyskillssupport
Accommodation

New international students have access to our accommodation service, which provides information on your accommodation options, including temporary accommodation, university accommodation and private accommodation.

**Airport reception**
You can book a representative from Macquarie’s Accommodation Services to pick you up from either the Sydney International or Domestic Airport and take you to your pre-arranged accommodation. This free service is available to all new international full degree students who book at least seven days in advance.

**Temporary accommodation**
We can help you organise your initial temporary accommodation so that you have somewhere to stay when you first arrive if your long-term accommodation is not ready, or if you want to find accommodation after you arrive. It is essential that you organise this before you leave home.

**University accommodation**
Long-term campus accommodation can be booked before you arrive in Sydney, or once you arrive. See the table opposite for information about the options. All university accommodation complexes have an onsite resident adviser, who oversees the logistics, arrival, departure and pastoral care of students.

**Private accommodation**
We advise you to view any potential private accommodation before you agree to move in, to ensure that the location is suitable and the accommodation is appropriate for your needs. As part of your search for accommodation, we offer a free service that enables advertising of private accommodation to Macquarie University students: find.accommodation.mq.edu.au

Want to know more about accommodation or airport reception? www.accommodation.mq.edu.au
## Residential Colleges

The two residential colleges are located right on campus and close to the Macquarie Centre shops and cinemas. They have a great community atmosphere, with local Australian and international students sharing a lively social life, common room and dining facilities.

### Dunmore Lang College
- Located on campus – three-minute walk to class, railway station, bus and major shopping centre.
- Fully furnished.
- Choice of three room types with internet and phone connections.
- Ensuite or shared available.
- All meals included.
- Academic support, language assistance, pastoral care, leadership and service opportunities, computer lab, free unlimited internet, free Sport and Aquatic Centre membership, speakers’ dinners, multicultural community, active students’ club, diverse events calendar, common rooms, library, music and chiropractic rooms, laundries, security, residential staff, scholarships, payment options, discounts, academic incentives.

### Robert Menzies College
- Located on campus – three-minute walk to class, railway station, bus and major shopping centre.
- Fully furnished single rooms with four room style options, all with fans, heating, internet and phone connection.
- Ensuite or shared available.
- Choose from fully catered or self catered.
- Academic assistance program and pastoral care; volleyball courts; free local phone calls; free monthly internet allowance; common room, music room, TV room with cable, college library, Chapel; laundry; car park; member kitchen; barbecue; courtyard; secured grounds; chiropractic table; computer lab with printers; table tennis, billiard and foosball tables; scholarships; subsidised Macquarie University Gym membership; regular social events; Postgraduate outings and sporting activities.

Enhancing your Macquarie degree

At Macquarie University we focus on developing your capabilities, to give you skills for your career and your life. You will have many opportunities to build your leadership, communication and life skills through a range of unique programs on offer.

Global Leadership Program (GLP)

The GLP is unique to Macquarie University and will differentiate you as a graduate prepared for a leadership role. This extracurricular program encourages you to develop cross-cultural and professional skills through learning that is put into practice via academic and cultural experiences both within Australia and overseas.

This program is funded by the University and is open to all Macquarie University students, from any discipline or degree. Successful completion of the GLP is recognised on your academic transcript and provides you with a competitive edge in the global employment market.

"The Global Leadership Program is the perfect supplement to my university experience. It allows me to develop soft skills such as effective leadership and professional communication and gives me a broader understanding and appreciation for the cultures that make up our global society."

Su Yin Lim, Malaysia
Actuarial Studies and Economics

Want to know more about the GLP?
www.international.mq.edu.au/GLP

Participation and Community Engagement (PACE)

The PACE program allows you to make active contributions to local, regional or international communities and organisations, broadening your global perspective and building the career skills employers look for. PACE enhances your educational experience and work-readiness by giving you the opportunity to apply your academic learning to real world situations, while assisting our partners to meet their mission and purpose.

Want to know more about PACE?
www.pace.mq.edu.au

Macquarie University student Taryn Brine working with children at the Pumamarca Community as part of a PACE International project with Peru’s Challenge in Cusco, Peru.
Student exchange opportunities
As a student at Macquarie University, you have access to a vast range of globally-focused opportunities. Macquarie has one of the most extensive international exchange programs of any Australian university. With over 300 universities from more than 60 countries to choose from, you can study overseas for periods ranging from a few weeks’ vacation study to a full academic year. Most importantly, Macquarie University helps support all eligible students financially with Student Mobility Funding, so everyone has the opportunity to enhance their degree with international experience.

Student Mobility Funding
Student mobility is a strategic priority for Macquarie University and our Student Mobility Funding scheme is one of the most generous of any Australian university. Student Mobility Funding is available to students who are travelling abroad for study on exchange, or who are participating in academic programs related to their Macquarie degree. Funding varies depending on the duration and location of the activity.

Want to know more about studying abroad and our partner university network?
www.international.mq.edu.au/goingabroad

Want to know more about Student Mobility Funding?
www.international.mq.edu.au/scholarships/travel_grants
Building your career

Graduate Development Program (GDP)
The Graduate Development program is free, fully flexible and open to all Macquarie University students interested in making an empowered transition to working life. The program is designed to challenge and inspire you to identify the skills you need to make your future a success, and build your own unique set of achievements. You can integrate the program into your studies and other activities as much or as little as you like.

Want to know more about the GDP?
www.international.mq.edu.au/GDP

Internships
Work experience is one of the most valuable things you can have on your CV. Taking an internship during your postgraduate studies can help you clarify your career direction and goals, whilst developing hands-on experience and learning directly from people in the industry.

Faculty-based internships
Internships are offered in all four faculties of the university.

Many internships are offered as academic units of study within specific degrees, with supervision and assessment structured throughout the internship period.

These units of study include:
- BUS880: Business Internship
- CBMS884: Biotechnology Industry Internship
- CHIR896: Chiropractic Clinic Internship
- ECED829: Early Childhood Postgraduate Internship
- ICOM828: International Communications Internship
- IRPG838: International Relations Internship Program
- PICT816: Policing, Intelligence and Counter-Terrorism Internship
- PSY956: Supervised Clinical Internship
- SOC849: Social Research Internship

Want to know more about internship units?
See the Macquarie University Handbook.
www.handbook.mq.edu.au
Macquarie International internships program

The Macquarie International internships program is one of the longest-running university-based internship programs in Australia. It facilitates internships for Study Abroad and Exchange students studying at Macquarie University, as well as students of the following degrees:

- Master of International Business
- Master of Commerce
- Master of International Relations

A number of exciting projects are available in the fields of marketing, public relations, event management, media, journalism, not-for-profit, biology and psychology. The program includes a practical work placement and academic assessments.

Want to know more about Macquarie International internships?
www.international.mq.edu.au/internships

"Challenging myself in an international environment and in a major multinational company has been the perfect fit for me. I've gained a lot of confidence and knowledge and it's a great step for my future career direction. Working in online marketing at eBay has been a real eye-opener for me and I can definitely see myself in this sector in the future."

Joakim Psych, Sweden
Internship at eBay
Australia and New Zealand

Did you know?
Our graduate starting salaries have been amongst the highest in Australia for over a decade.
Graduating from Macquarie you will be:

- **Highly employable** – Macquarie’s graduates are highly sought after and their starting salaries have been amongst the highest in Australia for more than a decade (*The Good Universities Guide 1998 – 2011*).

- **Knowledgeable, skilled and qualified** – You’ll receive quality teaching in your specific discipline, with a number of courses offering professional accreditation. Macquarie’s graduates go on to be leaders in their fields.

- **Ready to take on the world** – Macquarie provides you with more than just a degree – our personal and professional development programs arm you with the skills you need to launch a successful career, either in Australia or overseas.

Want to hear what our graduates say about Macquarie?
www.international.mq.edu.au/macquarie/alumni

**Life after Macquarie**
Graduation marks the conclusion of one stage of the Macquarie experience and the start of another – a lifelong relationship with the University through our alumni community.

With over 120,000 graduates in more than 120 countries, you’ll be able to stay connected via a range of social and professional activities:

- Alumni chapters in China, Hong Kong, Malaysia and Singapore.
- Informal and online networks growing in Canada, Cambodia, Chile, Germany, Indonesia, Japan, Mexico, Russia, South Africa, Thailand, the United States and Vietnam.
- Invitations to exclusive alumni events and programs.
- Opportunities to share your success story with fellow alumni and current students.
Where are our graduates now?

Dave Munro, Canada  
Master of Special Education  
Secondary Special Education teacher  
“I had never seen such an efficiently run school with an incredibly positive atmosphere where every learner felt supported and able to take risks. My Macquarie degree was immediately recognised by my employer and therefore, it not only increased my chances of getting the job, but also provided me with a higher salary.”

Eduardo Behar, Colombia  
Master of Commerce (Marketing)  
Owner, Emporium Trade (based in China)  
“At Macquarie we studied how businesses can adapt to cultural differences and I am now applying that on a day-to-day basis in my work, where I deal with both Chinese and Western clients. The teachers at Macquarie are very professional and the University’s cultural diversity expanded my perception of the world, taking my career to a place I would have never imagined before.”

Yingyod Lapwong, Thailand  
Master of Museum Studies  
Museum Manager  
“The best way to learn is to experience and at Macquarie I was able to visit museums throughout Australia, giving me a broad view of museum organisation and collection management. Macquarie is one of the few universities that offer a science focus, as well as art and history, and the University itself has nearly 10 museums, galleries and collections. It’s a really innovative university.”

Veronica Wu, China  
Master of Accounting (CPA Extension)  
Auditor, PricewaterhouseCoopers  
“I chose Macquarie over other universities because it offers not just an accounting degree, but also a professional certification. The technical accounting skills I learned at Macquarie helped me a lot, but more important I think, were the soft skills I learnt which help me do my job.”
What you can study

Macquarie University is distinguished by the range and quality of our courses. Our postgraduate coursework and research programs are designed in response to the ever-changing needs of industry, society and graduate outcomes.

Whether you are seeking a competitive edge in the workplace, a move to a new career or an opportunity to develop your personal experience, we are committed to helping you shape your future through postgraduate study. Macquarie University’s postgraduate programs:

- **Are based on research and relevant to 21st-century challenges.** World-leading research is undertaken by Macquarie University’s academic staff and students, and many discoveries are quickly applied to meet the needs of industry, society and the environment.

- **Are proven to help you get a better job.** Postgraduate study can increase your salary by up to 53 per cent above undergraduate pay level* and Macquarie University graduates enjoy starting salaries that have been amongst the highest in Australia for more than a decade (*Good Universities Guide 1998 – 2011*).

- **Allow you to change career direction.** With a postgraduate coursework degree you have the opportunity to change careers without having to undertake another undergraduate degree. For example, the Master of Commerce allows graduates of any undergraduate degree to further their knowledge and skills in specific areas of business, opening up new exciting career opportunities.

What is postgraduate study?

Postgraduate education involves learning and studying for a qualification that follows on from an undergraduate, or first, degree. Generally, you are required to have a Bachelor’s degree to undertake postgraduate study.

In Australia, there are two different types of postgraduate study programs: coursework or a research degree.

WHAT IS POSTGRADUATE COURSEWORK?

Postgraduate coursework degrees can result in three different types of qualifications – a masters, postgraduate diploma, or postgraduate certificate.

In many instances the postgraduate certificate and postgraduate diploma involve shorter-term study and fall within a broader master program. Units within the postgraduate certificate and postgraduate diploma are often the same, or similar, to those in the corresponding master program and appropriate performance in the shorter programs may be counted for credit towards the masters.

Entry into a postgraduate coursework degree usually requires the prior completion of a relevant undergraduate degree or diploma. See the course indexes in this guide for entry requirements for our postgraduate coursework degrees.

The program of study in many degrees is designed to meet the requirements for professional accreditation, for example, our Translating and Interpreting programs (see page 44) are accredited with the National Accreditation Authority for Translators and Interpreters (NAATI).

WHAT IS POSTGRADUATE RESEARCH?

Postgraduate degrees by research lead to either Masters or Doctoral (PhD) awards. The work involved is largely undertaken independently, with the input of a supervisor. Research degrees generally take longer than coursework options. To find out more about research opportunities at Macquarie, see page 58.

The Faculty of Arts makes a distinctive contribution to Macquarie’s innovative and interdisciplinary postgraduate environment through the study of both ancient and contemporary cultures.

Through our departments of Ancient History; International Studies; Philosophy; Modern History, Politics and International Relations; Media, Music, Communication and Cultural Studies; Sociology; Anthropology; English; and through the Centre for Research on Social Inclusion, Macquarie Law School and the Centre for Policing, Intelligence and Counter Terrorism, our Faculty provides a student-centred education that brings together research and teaching, making sure that the most up-to-date findings reach you.

We encourage you to explore your interests and investigate the topics that concern and challenge you. Our goal is to create socially engaged and well-rounded citizens that have experienced and participated in an enriched and productive postgraduate education. I trust that you will take the opportunity and join us here in the Faculty of Arts to further your study.

Professor John Simons
Executive Dean Faculty of Arts
Why choose Arts at Macquarie?

- The Faculty of Arts at Macquarie University has been ranked within the top one per cent of Arts faculties globally by the QS World University Rankings for the past two years.
- You will learn from people who write the textbooks that others use to teach. For example, Professor Naguib Kanawati, a Professor of Egyptology with a special interest in the Old Kingdom. In 1989 Professor Kanawati established the Australian Centre for Egyptology and remains its Director.
- You will get outstanding support from the Faculty’s small departments and personal supervisors, who can give you special attention and advice to help you meet goals and achieve excellence.
- You can choose from a vast range of topics and specialities, with the chance to explore ideas within and across disciplinary boundaries – from contemporary improvisation to Middle Eastern politics, social policy to children’s literature and international communication.

Centres and facilities

**Macquarie Law School**

Established in 1972, our Law School has a strong commitment to the interdisciplinary study of law, and offers Masters courses that are ideally suited to both lawyers and non-lawyers in the emerging areas of international and environmental law, and in international trade and commerce law.

**Did you know?**

Macquarie Commerce/Law student Ryan Harvey was named Law Student of the Year at the 2011 Lawyers Weekly Awards.

**Centre for Policing, Intelligence and Counter Terrorism (PICT)**

PICT operates as a high-level, cross-disciplinary centre that offers postgraduate courses, occasional expert seminars and opportunities for research in the many areas associated with security studies. PICT programs are designed for individuals looking to develop academic knowledge as well as for those wishing to further their career in policing, security, government, counter terrorism, computer forensics and intelligence.

**Museum of Ancient Cultures**

This on-campus museum is designed to support the teaching of postgraduate programs on offer within the Department of Ancient History.

**Media Production and Creative Practice Hub**

This hub supplies state-of-the-art facilities for postgraduate students who are interested in screen production, radio broadcasting and multimedia. We have a studio with a blue screen, mobile lighting grid, Sony 40” LCD screen and a Sony multiformat 800 line studio monitor. For radio broadcast students, cutting-edge equipment is available in the digitally equipped radio studio, while multimedia students work in a lab running a suite of industry standard applications.
Our expert staff

Julian Droogan
Associate Lecturer, Centre for Policing, Intelligence and Counter Terrorism

Julian studied anthropology, Asian history and culture and comparative religions in his undergraduate degree, and wrote on religious identity formation in South Asia for his postgraduate research work. Since joining Macquarie Julian has been the course convener for the PICT/ISS Research Project and Internship units, and the Managing Editor of the Journal of Policing, Intelligence and Counter Terrorism (JPICT). Julian also coordinates a series of research programs for the Council of Asian Transnational Threats Research (CATR).

“For me, teaching is about finding the inner qualities and skills that each student brings with them to postgraduate research, and then guiding them to make full advantage of their talents – often in ways they might never have expected.”

My Arts degree

“I had previously studied in Australia but I knew I wanted to go to Macquarie because of its prestige. Everything at Macquarie has exceeded my expectations – the teachers are professional, every lecture is really interesting and the tutorials are a friendly space to share knowledge, opinions and ideas. Because my degree is internationally-focused, I know I’ll get the knowledge I need to support my career.”

Cesar Abraham Castenada Valencia, Mexico
Master of International Communication

**FAQ: What is the difference between…?**

**Master of International Communication and Master of International Relations (both page 26)?**

Although both are suitable for students interested in working in multinational corporations or international organisations, the Master of International Communication explores communication channels and techniques while the Master of International Relations has a focus on international politics.

**Master of Politics and Public Policy and Master of Policy and Applied Social Research (both page 26)?**

While both programs focus on government and the development of policy, the Master of Politics and Public Policy studies the structures and processes involved in the formulation, implementation and evaluation of public policy, while the Master of Policy and Applied Social Research gives its graduates skills to undertake the social research required to assist in the development of these policies.
**Degree structures**

This sample program for the Master of International Relations for 2012 gives you an example of a typical postgraduate degree structure in the Faculty of Arts at Macquarie University. For the latest information and other degree structures, visit [www.handbook.mq.edu.au](http://www.handbook.mq.edu.au).

I warmly welcome you to the Faculty of Business and Economics. Our goal is to deliver leading-edge knowledge across a range of contemporary business disciplines to give you the opportunity to fast track your career or discover a new career.

Our courses produce graduates who are world-ready business professionals, who are flexible, confident with highly developed professional skills, enquiring minds, ethical principles and the confidence to contribute to shaping the future.

The learning experience of our students is informed by the best practices of applied business knowledge from our contemporary researchers, industry practitioners and highly qualified business academics. Our staff are members of professional associations such as CPA, IAA, and the ACCA.

I invite you to learn more about the Faculty of Business and Economics and what we can offer you and I hope to see you on our beautiful campus in the near future.

Professor Mark Gabbott
Executive Dean
Faculty of Business and Economics
Why choose Business and Economics at Macquarie?

- You will engage with highly-qualified academic staff who apply contemporary industry relevant research throughout our courses. You’ll learn from academics such as Professor Jeffrey Sheen, who after obtaining his PhD at the London School of Economics, has been on the faculty of the Universities of Manchester, Essex and Sydney and has had a visiting appointment at the Reserve Bank of Australia.
- You can achieve professional accreditation through your studies (see ‘Accreditation’ opposite). Our graduates are highly sought after by professional organisations.
- You will benefit from our industry connections such as the Faculty Industry Advisory Board and panels, with board members from Australian and international organisations such as Citigroup, Qantas and Bank of America Merrill Lynch.
- You can extend your understanding of business with in-depth study, or broaden your studies, by taking units in international business and management or completing a workplace project or internship for degree credit. See page 16 for information on internships.
- With a relevant business undergraduate degree, you may be granted exemptions from certain gateway units in our masters programs, allowing you to finish your degree ahead of time.
- Interested in two specialisations? It is possible to combine two into the one program, such as Accounting and Finance. You graduate with a Masters of Commerce in both Finance and Accounting in the same time frame.

Did you know?
Macquarie’s Master of Accounting (Professional) program is the largest postgraduate accounting program in Australia.
Our expert staff

Catriona Lavermicocca
Department of Accounting and Corporate Governance

A lecturer in undergraduate and postgraduate taxation law units at Macquarie University, Catriona’s research interests are in the areas of corporate taxation, tax compliance behaviour, director’s duties and corporate governance. Catriona completed an undergraduate degree in accounting and law at Macquarie University, going on to complete the Chartered Accounting Program and a Master of Law.

Catriona is currently completing a PhD titled ‘Tax risk management as a corporate governance issue in Australia and its impact on income tax compliance by large corporate taxpayers’. Her PhD research and prior experience as a tax practitioner informs her teaching so that her students learn about the technical aspects associated with an understanding of the taxation laws as well as the commercial and ethical issues that face tax advisors.

My Business and Economics degree

“In Australia, the style of teaching is very innovative and contains lots of self-motivated learning. The lecturers here are full of passion. They understand the sort of problems international students encounter and they provide lots of help, for example through consultation time.”

Yun-Ching Lin, Taiwan

*Other high quality graduate applicants will be considered on a case-by-case basis following an assessment of work experience, discipline-based background and overall academic achievement.

**Students who have completed undergraduate studies may be exempted from some units and be able to complete the degree in one year of study (or 1.5 years for the Master of Actuarial Practice).

O POSTGRADUATE CERTIFICATES AND DIPLOMAS

Postgraduate Certificates and Diplomas generally offer many of the same units as the corresponding Masters degree, and articulation to the Master is possible in many cases. For more information on these programs, including fees and intakes, see the online course database: [www.international.mq.edu.au/study](http://www.international.mq.edu.au/study)

DISCLAIMER

The fees quoted in this brochure are the estimated yearly fees payable for the relevant postgraduate program in 2012, and are calculated from per credit point fees. The University reviews the per credit point fee each year and may increase them in the following year. Information on the applicable per credit point fees and estimated yearly fees payable is available before enrolment. Students are subject to other fees, charges and conditions for each session in which they enrol and are advised to check the current fees, charges and conditions with the University before enrolling at any time. See [www.international.mq.edu.au/study](http://www.international.mq.edu.au/study) for more information. The University has the right to vary programs including their content, structure, entry requirements (including score conversion) and graduation requirements from time to time. Programs with limited places (a quota)

Academic programs may have limited places for the number of students to be accepted. The quota may be reached and the program full prior to the application deadline. Therefore applicants are encouraged to apply as far as possible before the deadline set in the offer letters. If a program is full when your application is processed or your acceptance received, the University will forward your application to be considered for the next available intake.

*All available Postgraduate Certificates of Research Preparation (Business and Economics) CRICOS Code 075525F.

*Other high-quality graduate applicants will be considered on a case-by-case basis following an assessment of work experience, discipline-based background and overall academic achievement.

*Students who have appropriate undergraduate studies may be exempted from some units and be able to complete the degree in one year of study for 15 years for the Master of Actuarial Practice.

**Postgraduate Certificates and Diplomas generally offer many of the same units as the corresponding masters degree, and articulation to the Master is possible in many cases. For more information on these programs, including fees and intakes, see the online course database www.international.mq.edu.au/study.

**DISCLAIMER
This page quotes the estimated yearly fees payable for the relevant postgraduate program in 2012, and are calculated from per credit point fees. The University reviews the per credit point fees each year and may increase them in the following year. Information on the applicable per credit point fees and estimated yearly fees payable is available before enrolment. Students are subject to other fees, charges and conditions for each session in which they enrol and are advised to check the current fees, charges and conditions with the University before enrolment. The University's agents, contractors and employees will not be liable to a student for any loss or damage arising directly or indirectly from the student's failure to make these checks or otherwise to the University's amendment to any fee, charge or condition. The University has the right to vary programs including their content, structure, entry requirements (including score conversions) and graduation requirements from time to time. Programs with limited places may be further limited in the last year of a program.

An academic program may have limited places for the number of students to be accepted. The quota may be reached at the program full prior to the application deadline. Therefore applicants are encouraged to apply as far in advance of the application deadline and to accept their offer as soon as possible before the deadline set in the offer letter. If a program is full before your application is processed and you receive a refusal, the University will transfer your application to the next available intake.
FAQ: What is the difference between...?

Master of Commerce and Master of International Business (both page 34)?
The Master of International Business has a greater international focus, with units such as International Financial Management and International Marketing, whereas the Master of Commerce offers you more diversity in the range of disciplines you can specialise in (such as Human Resources, Finance, Economics, Accounting, Management or Marketing).

Master of Accounting (Professional) and Master of Accounting (CPA Extension) (page 33)?
The Master of Accounting (Professional) meets the requirements for students to continue their professional qualifications with either CPA Australia or the Institute of Chartered Accounting in Australia. The Master of Accounting (CPA Extension) adds one more year of study to the Professional program so that students can complete the CPA Australia professional examinations, supported through classes at university.
Degree structures

This sample program for the Master of Commerce gives you an example of a typical postgraduate degree structure in the Faculty of Business and Economics at Macquarie University. For the latest information and other degree structures, visit www.handbook.mq.edu.au.

Master of Commerce

To complete the degree requirements for the Master of Commerce, a student must take a combination of the units below, each worth four (4) credit points. The total credit points required for the degree is 48, which is completed in a minimum of 1.5 years.

**REQUIRED CREDIT POINTS AT 600 LEVEL (GATEWAY UNITS*):**

Macquarie’s internships program is one of the longest-running in Australia. Macquarie International facilitates internships for postgraduate students in Commerce, International Business and International Relations.
MGSM degrees

The Macquarie Graduate School of Management has an excellent reputation and high international rankings. The School offers a suite of postgraduate business degrees including the high-ranking MBA and Master of Management programs.

MGSM is one of the top tier business schools in Australia, is the longest established in NSW and is ranked in the Top 100 Global MBA programs by The Economist. The School specialises in the delivery of a comprehensive suite of postgraduate programs designed for the experienced management professional. MGSM students have significant work experience at a managerial/professional level, which ensures a challenging, thought provoking and interactive classroom experience.

Degrees at MGSM are awarded by Macquarie University and are offered at two campuses (North Ryde and Sydney CBD) and offshore in Hong Kong (see page 57). The School builds on its highly regarded MBA program by providing an excellent environment for undertaking research in business, with one of the largest doctoral programs of any business school in the Asia/Pacific region.

Ω POSTGRADUATE CERTIFICATES AND DIPLOMAS
Postgraduate Certificates and Diplomas generally offer many of the same units as the corresponding Master’s degree, and articulation to the Master is possible in many cases. For more information on these programs, including fees and intakes, see the online course database www.international.mq.edu.au/study.

DISCLAIMER
The fees quoted in this brochure are the estimated yearly fees payable for the relevant postgraduate program in 2012, and are calculated from per credit point fees. The University reviews the per credit point fees each year and may increase them in the following year. Information on the applicable per credit point fees and estimated yearly fees payable is available before enrolment. Students are subject to other fees, charges and conditions for each session in which they enrol and are advised to check the current fees, charges and conditions with the University before enrolling at any time. See www.international.mq.edu.au/study/fees

The University, its agents, contractors and employees will not be liable to a student for any loss or damage arising directly or indirectly from the student's failure to make these checks or from the University’s amendment to any fee, charge or condition. The University has the right to vary programs including their content, structure, entry requirements (including score conversions) and graduation requirements from time to time.

Programs with limited places (in square)
An academic program may have limited places for the number of students to be accepted. The quotas may be reached and the program filled prior to the application deadline. Therefore applicants are encouraged to apply as far in advance of the application deadline and to accept their offer as soon as possible before the deadline since the offer letter for programs full when your application is processed or your acceptance received, the University will transfer your application to be considered for the next available intake.
The Faculty of Human Sciences aims to be a leader in research and professional education in its fields of expertise contributing to the advancement of a socially just and sustainable society through critical analysis of local and global issues, innovative research, and leadership in professional practice. Our research and teaching engage with important social issues to provide solutions based on sound evidence and ethical practice.

Our goal is to help you become a leader in your profession by giving you a high quality education informed by the latest research and expert teaching.

Our academic staff are actively involved in research and their professional communities, and bring this expertise to you through engaging and innovative programs that involve learning through the classroom, technology and practical participation in your profession.

We have strong relationships with professional and industry partners, and well equipped facilities for professional training. I invite you to help us make a difference to the world through your postgraduate study in the human sciences.

Best wishes

Professor Janet Greeley
Executive Dean
Faculty of Human Sciences
Why choose postgraduate Human Sciences at Macquarie?

• You will learn from internationally recognised researchers including Professor Ron Rapee, Director of the Centre for Emotional Health (CEH). Professor Rapee has an international reputation for his research into the understanding and management of anxiety and related problems in both children and adults.
• You can be part of innovative research through well-funded, ground-breaking programs that are nourished in concentrated, cross-disciplinary research centres.
• You will develop your knowledge and expand your networks of contacts through Macquarie’s partnerships with other universities, community organisations, government departments, private companies and medical institutions in Australia and overseas.
• You will access state-of-the-art facilities such as our magnetoencephalography laboratory, which includes the world’s first whole-head brain imaging system for children, as well as outstanding clinical and teacher education training facilities for professional courses.

Accreditation

• Our translating and interpreting coursework programs are approved by the National Accreditation Authority for Translators and Interpreters (NAATI).
• The Master of Clinical Neuropsychology, Master of Clinical Psychology and Master of Organisational Psychology have full accreditation by the Australian Psychology Accreditation Council (APAC), and approval of the relevant colleges. Students are eligible to apply for registration as a psychologist with the Psychology Board of Australia (PBA) after completing their degree.
• To achieve a qualification to teach in Australia, appropriately qualified graduates can complete either the Master of Teaching (Birth to Five Years) for teaching in early childhood, the Graduate Diploma in Education for secondary level teaching, or the Bachelor of Education (Primary) for primary level teaching.
Our expert staff

Professor John Hedberg
Head, School of Education

John holds the Millennium Innovations Chair of ICT and Education in the School of Education. He has taught postgraduate courses on cognitive strategies, interface design for learning, and implementation and evaluation of technology-based learning, as well as strategic planning for technology implementation in schools. He has also been keynote speaker at numerous conferences on the educational technologies in Canada, United States, Singapore, Malaysia, China and Europe.

My Human Sciences degree

“I was an English teacher back home, but this degree will really help me in my new career as a translator and interpreter. I really love the course – the lecturers are perfectly bilingual and very passionate about their subjects. They are also strict about the quality of our work, which is good because when it comes to translation and interpreting, you need to be very accurate and you need a lot of practice.”

So-Young Kim, South Korea
Master of Translating and Interpreting

*Higher English language requirements apply. Translating and Interpreting: IELTS of minimum 7.0 overall with minimum 6.5 in each section. Students accredited at NAATI professional level with at least two years professional work experience are deemed to have met the English language requirements for entry.

**LOCATION**
NR = Macquarie University main campus (North Ryde) City = Macquarie City Campus

**D POSTGRADUATE CERTIFICATES AND DIPLOMAS**
Postgraduate Certificates and Diplomas generally offer many of the same units as the corresponding Masters degree, and articulation to the Master is possible in many cases. For more information on these programs, including fees and intakes, see the online course database www.international.mq.edu.au/study
FAQ: What is the difference between...?  

The Master of Translating and Interpreting, the Master of Advanced Translation, and the Master of Conference Interpreting (page 43)?  

If you complete the Master of Translating and Interpreting, or Postgraduate Diploma in Translating and Interpreting, you can pursue a career as a freelance or in-house translator or interpreter, or a range of other language-related jobs. Alternatively, you can continue your studies for another year in the Master of Advanced Translation or Master of Conference Interpreting programs* to further improve your job prospects or pursue research interests through the Higher Degree Research programs.

* Eligibility is dependent on results in specific units of study; see course information on page 43 for entry requirements.
Degree structures

This sample program for the Master of Applied Linguistics (specialising in TESOL) gives you an example of a typical postgraduate degree structure in the Faculty of Human Sciences at Macquarie University. For the latest information and other degree structures, visit www.handbook.mq.edu.au

Master of Applied Linguistics (specialising in TESOL)

To complete the degree requirements for the Master of Applied Linguistics with a specialisation in Teaching English for Speakers of Other Languages (TESOL), a student must take a combination of the units below, each worth four (4) credit points. The total credit points required for the degree is 32.

Please note that the units offered may change from time to time. Please check the latest unit information at the time of your enrolment at www.handbook.mq.edu.au. Information given in this publication is correct at the time of printing (December 2011) but is subject to change without notice. The University has the right to alter the content or impose terms and conditions in relation to a program at any time.

Did you know?
The Australian Hearing Hub is being built on Macquarie’s North Ryde campus and is due for completion in 2012. It will be a world-class facility, purpose-designed to facilitate collaborative research into hearing and related speech and language disorders.
We live in times of great innovation, opportunity and challenge. Our postgraduate courses provide you with an understanding of the latest developments in critical areas that are emerging in industry and government. These courses provide a distinctive edge for professionals with links to cutting-edge discoveries and developments.

Keeping up with the pace of scientific change through your postgraduate coursework will enable you to diversify your workplace choices and improve your employment options to build a career that is rewarding and satisfying.

The Faculty of Science offers postgraduate courses in Environment and Geography, Medical and Health Sciences, Information Technology and Statistics. Many of our staff are internationally regarded in their specific area of research and active in industry which brings a deep understanding of current trends and issues to their teaching.

We recognise that postgraduate coursework students have specific needs compared to other students and that is why in 2012 the Faculty of Science is opening a dedicated postgraduate hub for its postgraduate students providing an environment and facilities tailored to their needs.

The Faculty of Science is leading the way for those with imagination, curiosity, genius and innovation, to come together and make a real difference.

I wish you further success in your career and encourage you to consider our postgraduate courses at Macquarie University.

Professor Stephen Thurgate
Executive Dean Faculty of Science
Why choose postgraduate Science at Macquarie?

- Learn from our world-renowned researchers. Our science researchers received top marks in 2011 from the Australian Government’s inaugural Excellence in Research for Australia (ERA) initiative. Our research in Earth sciences, environmental sciences, physical sciences and biological sciences each received a perfect 5 out of 5 score, rating our research as outstanding and well above world standard.
- Access to our excellent facilities for postgraduate study. In 2012 the Faculty of Science is opening a dedicated postgraduate hub for its postgraduate students providing an environment and facilities tailored to their needs.
- Take advantage of our strong ties to industry through visiting lecturers, internships or industry advisory panels that take an active role in your postgraduate study.
- Our courses focus on practical applications. You will graduate with the level of knowledge and skill that employers need and want. For example, Master of Chiropractic students participate in a year-long internship working within one of Macquarie University’s Chiropractic Clinics.
- Get the competitive edge. With links to cutting-edge discoveries and developments, our postgraduate courses enable you to keep up with the pace of scientific change while diversifying your workplace choices and improving your employment options.

Accreditation

- The Master of Chiropractic degree is fully accredited by Australian Chiropractic accrediting agencies and is recognised internationally.
- The Master of Information Technology is accredited by the Australian Computer Society (ACS), the peak industry body in Australia.
- The Master of Environmental Planning is accredited by the Planning Institute of Australia (PIA).
- The Master of Biostatistics is accredited by the Statistical Society of Australia.

Centres and facilities

Dedicated Postgraduate Hub

In 2012 the Faculty of Science is opening a dedicated postgraduate hub for its postgraduate students providing an environment and facilities tailored to their specific needs.

Chiropractic facilities

In 2011 our chiropractic facilities were refurbished, utilising the latest technologies with sustainability in mind. The new facilities occupy an entire floor stretching across 1286 square meters and include purpose-built rooms for radiology, orthopaedics, rehabilitation and case management. Audiovisual equipment is used for the recording and presentation of chiropractic and other procedures and remote video playback enhances the learning process.

For the anatomy component of their degree, our chiropractic students access new facilities within the Macquarie University Hospital.

Australian Proteome Analysis Facility (APAF)

APAF is the leading proteomics service provider nationally, and is continually forming new collaborations with research groups throughout the Australian and international biotechnology communities. APAF conducts the study and identification of the thousands of types of proteins found in humans, plants, animals, bacteria and other life forms. The expression of particular proteins can be used as “biomarkers” of health, disease and/or quality.

Graduate School of the Environment (GSE)

GSE offers excellent facilities for postgraduate study including well-equipped classrooms, laboratories, field equipment and common areas.

Did you know?

Macquarie University is ranked number one in Australia for environmental sciences and ecology research by the UK’s Times Higher Education.
Our expert staff

Wendy Goldstein
Lecturer, Graduate School of the Environment

Wendy joined the Graduate School of the Environment in 2005, after 14 years working for the International Union for Conservation of Nature (IUCN) in Switzerland.

“My work at IUCN meant involvement in many of the international negotiations that are shaping sustainable development and education today. I was attracted to the prospect of university teaching because of the work IUCN did with university environment departments from all over the world. I am enjoying being part of the teaching fraternity, relating theory to practice and sharing experience with our great students.

Wendy’s research interests are in social change and change process. She is part of Macquarie University’s Sustainability working group and is a guest lecturer in the Global Leadership Program (see page 14).

My Science degree

“Macquarie’s Information Technology courses provide not only a theoretical aspect but a practical aspect which means you can use what you’ve learned in your day-to-day work. There is also a lot of group work, which allows you to work with people from all of the world, and it’s great to participate in that knowledge sharing. I hope to use my Macquarie degree to open my own business in my home country.”

Sara Faisal, Ethiopia
Master of Information Technology

FAQ: What is the difference between…?

The Master of Information Technology and Master of Information Technology Consulting (see page 51)?

The Master of Information Technology is designed for students who are established IT professionals and want to hone their skills in a particular area, build on the knowledge gained in their undergraduate degree, or to simply give themselves the edge in career advancement. The Master of Information Technology Consulting program articulates from the Master of Information Technology and gives students the opportunity for one year of practical and industry focused experience. This degree prepares students for a consulting career in the IT industry.
An academic program may have limited places for the number of students to be accepted. The quota may be reached and the program may close prior to the application deadline. Therefore applicants are encouraged to apply as far in advance of the application deadline to make these checks or from the University’s amendment to any fee, charge or condition. The University has the right to change the content, structure, entry requirements (including score conversions) and graduation requirements from time to time.

And to accept their offer as soon as possible before the deadline set in the offer letter. If a program is full when your application is received and the University transfers your application to be considered for the next available intake. See Information on the applicable per credit point fees and estimated yearly fees payable is available before enrolment. The University reviews the per credit point fees each year and may increase them in the following year.

**DISCLAIMER**

The fees quoted in this brochure are the estimated yearly fees payable for the relevant postgraduate program in 2012, and are calculated from per credit point fees. The University reserves the per credit point fees each year and may increase them in the following year. Information on the applicable per credit point fees and estimated yearly fees payable is available before enrolment. Applicants for this degree will usually be interviewed to determine suitability for industry placement.

**LOCATION**

NR = Macquarie University main campus (North Ryde)
City = Macquarie City Campus

**A DISTANCE**

Distance programs can be studied from an overseas location and may be a convenient option for you if you have work or family commitments. See page 57 for more information.

**O POSTGRADUATE CERTIFICATES AND DIPLOMAS**

Postgraduate Certificates and Diplomas generally offer many of the same units as the corresponding Masters degree, and articulation to the Master is possible in many cases. For more information on these programs, including fees and intakes, see the online course database www.international.mq.edu.au/austudy

### DISCLAIRER

The fees quoted in this brochure are the estimated yearly fees payable for the relevant postgraduate program in 2012, and are calculated from per credit point fees. The University reserves the right to increase them in the following year. Information on the applicable per credit point fees and estimated yearly fees payable is available at a fee before enrolment. Students are subject to other fees, charges and conditions for each year in which they enrol and are advised to check the current fees, charges and conditions with the University before enrolling at any time. See www.international.mq.edu.au/fees. The University, its agents, contractors and employees will not be liable to a student for any loss or damage arising directly or indirectly from the University’s amendment to any fee, charge or condition. The University has the right to change the content, structure, entry requirements (including score conversions) and graduation requirements from time to time. Programs with limited places (∆) are only available to students without relevant prerequisites for entry. If a program is full when your application is received, the University will transfer your application to be considered for the next available intake.

Please note that the units offered may change from time to time. Please check the latest unit information at the time of your enrolment at [www.handbook.mq.edu.au](http://www.handbook.mq.edu.au). Information given in this publication is correct at the time of printing (December 2011) but is subject to change without notice. The University has the right to alter the content or impose terms and conditions in relation to a program at any time.
FAQ: What is the difference between…?

The Master of Environmental Management, Master of Environmental Science and Master of Environmental Studies (see page 52)?

The Master of Environmental Studies is the broadest and most flexible program of the eight Masters degrees offered by the Graduate School of the Environment. You can explore environmental issues in an interdisciplinary way, in programs tailored to your interests. By comparison, the Master of Environmental Management provides you with knowledge and skills to be able to cooperate within or manage a team of people finding solutions to environmental problems. The Master of Environmental Science teaches you to understand processes occurring in the natural world and how human populations affect these processes.

Did you know?

The Faculty of Science offers a 30,000 litre recirculating seawater facility – one of the most technically advanced seawater systems in the country – allowing marine science students to do controlled experiments before testing in the field.
Pathways to masters program

If you do not meet the direct entry requirements listed in this guide, in some instances you may be eligible to enter the program via a pathway.

You only need to complete the application form at the end of this brochure for the Master degree program you are interested in. If you are eligible for a pathway, you will be given a ‘package offer’ for the pathway program plus the Master program. Entry into the Master program will be conditional on successful completion of the pathway program, to the level of achievement outlined in your offer.

The University has the right to vary programs from time to time, including their content, structure, entry requirements (including score conversions) and graduation requirements. For more information, see disclaimers at bottom of degree pages.
Flexible study options

Macquarie University offers a number of opportunities for you to qualify for a Macquarie degree in your home country including transnational and distance.

**Transnational (offshore) programs**
The following programs are offered via locations outside Australia:

- Singapore Human Resources Institute
- Tsinghua University, Beijing
- The Hong Kong Management Association
- Korea University, Seoul

**Want to know more about transnational programs?**
www.international.mq.edu.au/study/transnationalprograms

**Dual degrees**
Dual Degrees offer the unique opportunity to complete two degrees – one at your home institution and another at Macquarie.

Macquarie University has developed dual degree agreements with the following universities*.

- Universidad de la Sabana
- Politecnico Grancolombiano
- Universidad del Desarrollo
- ESCEM School of Business and Management
- INSEEC School of Business
- Universitas Binus Nusantara
- Tecnologico de Monterrey - Monterrey
- EGADE Tecnologico de Monterrey – Graduate School of Business
- Universidad Anahuac

*Specific disciplines and locations are available. See website for latest program information.

**Distance**
If you are working full-time, or cannot travel to study, distance education may be the best study option for you.

Distance education allows you to study at your own pace with personal attention from Macquarie University staff in Sydney. A number of distance courses are offered across our four faculties, with students graduating with a Macquarie University degree.

**View the full list of courses available by distance education.**
www.international.mq.edu.au/distanceeducation

**Want to know more about dual degree programs?**
www.international.mq.edu.au/study/dualdegrees
Why do a research degree?
When students undertake research they pursue excellence to become an expert in their field. They can have their findings published and present them at national and international conferences. When research is recognised in such a way it can open doors to the world of academia or a leadership role in the private sector.

After gaining a doctoral research degree you can progress to a postdoctoral fellowship, where you get paid to work in an academic environment to further your doctoral study and qualification.

There are several pathways into higher degree research at Macquarie University. To see how you might progress into a PhD program, see our progression chart on page 61.

PhD scholarships
Macquarie provides generous scholarships for eligible PhD candidates at Macquarie University in key areas of research excellence. The majority of our international PhD candidates receive scholarships provided either by government scholarship agencies or our own Macquarie Research Excellence Scholarship (MQRES), which provides full tuition payment and a living allowance/stipend of around AU$22,680 per year (as of 2011) for up to 3.5 years. For more information, visit www.hdr.mq.edu.au/information_about/scholarships.
Concentrations of Research Excellence (COREs)

Macquarie’s international reputation rests on distinct research areas of the highest quality. Currently, there are 18 COREs:

**Ancient Cultures**
The Ancient Cultures Research Centre (MQACRC) undertakes collaborative research on cross-cultural interaction in ancient cultures, with a special focus on the close study of physical artefacts from antiquity.

**Animal Behaviour**
Research combines insights from sensory, physiological and cognitive processes with genetic and comparative analyses. The goal of this uniquely integrative approach is to understand animal behaviour at all levels, from mechanism to evolution.

**Astronomy and Astrophysics**
A rapidly growing centre of astronomical research excellence, with strong links to the Anglo-Australian Observatory and Australia Telescope National Facility, offering valuable synergies and opportunities for collaborations in astronomy and astronomical instrumentation and astrophotonics.

**Biomolecular Frontiers**
Undertakes world-class research in the fields of proteomics, glycomics, genomics, biotechnology and chemical biology related to cell biology, human disease biomarker discovery, agri-food quality trait discovery, microbial physiology & pathogenicity, gene transfer systems, protein post-translational modifications and expression, and bioinformatics.

**Climate Risk**
A multi-disciplinary group with expertise in climatology, water, coastal processes, geomorphology, ecology, economics, law and governance, social policy, planning and risk analysis.

**Ecology and Evolution Team**
The Ecology & Evolution team works under the slogan ‘genes to geoscience’, integrating molecular genetics through evolutionary theory to global ecosystems and to the history of life through geological time.

**Cognitive Science**
This team studies the basic processes of cognition and uses results to achieve greater understanding of cognitive disorders such as schizophrenia, autism, dyslexia, aphasia, specific language impairment in children, and prosopagnosia.

**Earth and Planetary Evolution**
Macquarie has become a world-leader in mapping the Earth in four dimensions. Cutting-edge isotope, geochemical and experimental instrumentation and strong industry collaborations attract leading local and international geoscientists.

**Emotional Health**
Conduct research into the understanding, treatment and prevention of emotional distress including anxiety, depression, and related disorders and to promote positive emotional health. Research interests of team members focus on emotional difficulties across the lifespan.
Financial Risk
Focuses on the financial implications of risk which impact all sectors of society. The key research agenda for the CORE is to better understand, integrate, manage and price financial risk to allow their efficient and equitable distribution within our economic system.

Language Sciences
Brings a combination of theoretical, experimental and computational approaches to the investigation of live issues in the production and comprehension of languages across the human life span.

Lasers and Photonics
Researchers pursue a broad range of experimental and theoretical studies in lasers, optics, photonics and optoelectronics, aiming to address fundamental questions and develop new optical technologies.

Legal Governance
Building on Macquarie Law School’s reputation for cross-disciplinary research in the fields of international, public, and private law, this CORE’s research reaches out to the legal profession, business, governments, and NGOs requiring expertise in legal governance in Australia and worldwide.

Neuroscience, Vascular Sciences and Surgery
A multidisciplinary team of researchers including neuroscientists, biomedical engineers, cardiovascular specialists and surgeons, who research the effects of the brain on the cardiovascular and respiratory systems; and the effects of the cardiovascular system upon the brain.

Quantum Information Science and Security
With experts in optics, condensed matter physics, theoretical physics, computer science, statistics and chemistry, Macquarie University is building a unique and cross-disciplinary team to forge innovative discoveries in quantum science and technology.

Social, Cultural and Political Change
A cross-disciplinary group with expertise in the history of media, culture and politics and a research agenda that explores the intersections between them.

Social Inclusion
Scholars engaged in philosophical, social and cultural inquiry collaborate in interdisciplinary research on key social issues such as work reform, globalisation, cities, migration, multiculturalism, racism and welfare.

Wireless Communications
Undertaking complementary research activities related to wireless communications, which range from transistor circuits for radios, through to issues related to telecommunications networking, to transmission via optical and radio propagation.

Did you know?
International PhD applications are accepted all year round, allowing greater flexibility in start dates for potential applicants.
Did you know?

International PhD applications are accepted all year round, allowing greater flexibility in start dates for potential applicants.

Equivalent research experience e.g. research papers

New research training Masters degrees, consistent with the well-known ‘Bologna model’, will replace Honours and Research Preparation programs. This will better prepare graduates for doctoral studies and allow for more articulation and joint-PhD options with overseas universities.

For more information, contact the Higher Degree Research Office:
hdrfuture@mq.edu.au
Macquarie University English Language Centre (CME)
CME is conveniently located on campus. By studying at CME, students have access to all Macquarie University facilities and services and they will experience student life on campus from the very start.

WHY CME IS A GREAT PLACE TO STUDY ENGLISH?
• Admissions offers for Macquarie University and SIBT programs can be packaged with CME programs upon request.
• The University Entry English Preparation Programs have been developed in consultation with university lecturers to ensure students develop the language, communication and study skills needed to succeed in their future studies.
• CME is known as a leader in English Language teaching face-to-face and online and for cutting edge eLearning methodology.
• Our caring and highly qualified teachers and student support staff are committed to helping students achieve success and ensure a trouble-free transition to studying in Australia.
• CME students in Semester 1, 2011 at Macquarie University achieved a 15% higher GPA score than students entering Macquarie University from any other major English language centres!

Your rights as an international student – the ESOS framework
Australia has a reputation as a safe, progressive and dynamic place to study, and this reputation is maintained by providing quality education and consumer protection specifically developed for overseas students. The Education Services for Overseas Students (ESOS) Act 2000 and associated legislation is the legal framework governing the responsibility of education institutions towards overseas students.

These laws are known as the ESOS framework and they include:
1. The Education for Overseas Students (ESOS) Act 2000
2. The Education for Overseas Students (ESOS) Regulations 2000
3. The National Code 2007 – which provides national standards for the conduct of the registered providers and the registration of their courses.

The ESOS framework benefits two particular groups:
1. It protects overseas students coming to Australia on student visas. It does not cover overseas students on other kinds of visas, nor does it cover students studying at Australian institutions based in other countries.
2. It sets out clear roles and responsibilities for education institutions wanting to teach overseas students.

The ESOS framework supports the Migration Act 1958 (Cth) by reinforcing students’ obligations under their student visas, and requiring institutions to monitor students’ compliance with their visa obligations.

Macquarie University takes its ESOS obligations seriously, and endeavours to deliver educational services of the highest academic standard and to promote them in the most ethical manner possible. It monitors students’ compliance with their visa conditions and reports to the Federal Government wherever a student breaches their obligations.
English language requirements

All international students at Macquarie University are required to provide evidence of proficiency in English. For admission into a Macquarie University postgraduate degree, this can be done in one of three ways.

**Option one: complete an approved English language test**

<table>
<thead>
<tr>
<th>TEST/PROGRAM</th>
<th>TEST SCORE</th>
</tr>
</thead>
<tbody>
<tr>
<td>IELTS (Academic English only)</td>
<td>Minimum 6.5 overall with 6.0 Listening, 6.0 in Reading, 6.0 in Writing, 6.0 Speaking</td>
</tr>
<tr>
<td>TOEFL (paper based test)</td>
<td>Minimum 570 overall with 53 Listening, 52 Reading, 59 Structure/ Written Expression, 4.5 TWE</td>
</tr>
<tr>
<td>TOEFL (internet based test)</td>
<td>Minimum 90 overall with 20 Listening, 20 Reading, 22 Writing, 20 Speaking</td>
</tr>
<tr>
<td>Pearson Test of English (PTE) Academic</td>
<td>Minimum 64 overall, with minimum 60 in all communicative skills</td>
</tr>
</tbody>
</table>

* Higher English language requirements apply for some programs including all programs in Advanced Medicine, Education, Translating and Interpreting and Psychology. For more information, visit [www.international.mq.edu.au/applications/apply/english](http://www.international.mq.edu.au/applications/apply/english)

To see other accepted tests, visit [www.international.mq.edu.au/applications/apply/english](http://www.international.mq.edu.au/applications/apply/english)

**Option two: Study English at an approved Australian ELICOS college**

To view the list of approved ELICOS colleges, and to check specific test-score requirements from each institution, visit [www.international.mq.edu.au/applications/apply/english](http://www.international.mq.edu.au/applications/apply/english)

+ Please note: The Department of Immigration and Citizenship (DIAC), requires that students from certain assessment levels submit an IELTS result to obtain a Student Visa. Even with an offer from the University, an IELTS test result may still be required. For further information visit [www.immi.gov.au/students/student-visa-assessment-levels.htm](http://www.immi.gov.au/students/student-visa-assessment-levels.htm)

**Option three: Satisfy alternate English language requirements**

You may be considered for admission if:

- you were born in an English speaking country (see box, below) AND have at least one assessable qualification from one of the countries listed AND the language in which you undertook the qualification was English.
- OR if you were not born in an English speaking country BUT have completed senior secondary study or at least one year of full-time university study in one of these countries within two years of your course commencement date AND the language in which you undertook this qualification was English.

**ENGLISH SPEAKING COUNTRIES**
American Samoa, Australia, Canada, Fiji, Ireland, Kenya, New Zealand, Papua New Guinea, Singapore, Solomon Islands, South Africa, UK, USA and Zambia.

The following tests and programs are also accepted:

- CCPE (Cambridge Certificate of Proficiency in English)
- Denmark – Upper Secondary School
- Finland – High School
- Germany – German Academic Exchange Organisation (DAAD) and Abitur
- Netherlands VWO (pre-university education) and HAVO
- Norway – Upper Secondary School, with final grade of 4 or higher in English
- Sweden – Upper Secondary School
- International Baccalaureate (IB)
- General Certificate of Education ‘A’ Levels (GCE ‘A’ Levels) UK, Singapore
- Hong Kong Advanced Level Examination (HKALE), with a C grade in ‘Use of English’
- Completed AQF Certificate IV (including English for Academic Purposes – EAP) or completed Advanced Certificate (including EAP).

To check the score requirements for these tests and programs, visit [www.international.mq.edu.au/applications/apply/english](http://www.international.mq.edu.au/applications/apply/english)
How to apply

There are five main steps when applying for admission to a postgraduate degree at Macquarie University.

Step 1: Research your study options

Step 2: Check the entry requirements

Step 3: Submit your application

Step 4: Accept your offer

Step 5: Prepare for your arrival to Macquarie University

Step 1: Research your study options

Use this guide, or visit our online database, to choose a course that is suitable for you. www.international.mq.edu.au/study

Step 2: Check the entry requirements

Each course has specific entry requirements that you need to fulfil, in order to be considered for entry.

Entry requirements

UNIVERSITY QUALIFICATIONS
The minimum qualification for entry into a postgraduate degree at Macquarie University is a bachelor degree from a recognised university. Other qualifications and work experience are assessed separately.

ENGLISH LANGUAGE REQUIREMENTS
All international students at Macquarie are required to provide evidence of proficiency in English. See page 63 for more information.

PREREQUISITE SUBJECTS AND WORK EXPERIENCE
Some programs require you to have a certain level of prior knowledge in particular subject areas (prerequisite subjects) or work experience in order to be considered for entry into a postgraduate program.

Required prerequisite knowledge or work experience is noted in the course entry requirements listed in this guide, or you can check program entry requirements online www.international.mq.edu.au/study/postgraduate

Step 3: Submit your application

Apply online using My Macquarie
My Macquarie is the online application system for international students.

To apply online, visit www.international.mq.edu.au/onlineapplication

It will take you approximately 15 – 20 minutes to complete your application, providing you have the relevant documents ready to upload.

WHY USE MY MACQUARIE TO APPLY ONLINE?
• If you submit your application online you will pay a reduced application fee of only AU$55.
• Your application to Macquarie University will be prioritised.
• You can save and update your application until you are ready to submit it.

Online application is not available for:
• MGSM and Master of Applied Finance programs.
• Study Abroad and Exchange programs, transnational, online, or offshore study programs

Application forms for these programs can be downloaded from www.international.mq.edu.au/help/application_forms

To apply for a program at Macquarie City Campus (including the Macquarie University Foundation Program), go to www.city.mq.edu.au/apply.html
Supporting documents
You need to provide either original or certified copies of documents such as transcripts, qualifications and English proficiency test results. Macquarie University reserves the right to refuse documentation on the grounds of incorrect certification or translation procedures. Falsifying documents is a very serious offence which will result in your application for admission being refused by the University.

WHO CAN CERTIFY DOCUMENTS?
Documents can be certified by:
• Your current or previous education institution
• A Notary Public (notaries are senior legal practitioners who authenticate, prepare, attest, witness and certify original and copy legal documents for use overseas)
• A representative who is registered with Macquarie University
• A Macquarie University staff member
• A Government official

TRANSLATING DOCUMENTS
Documents in your native language must be translated professionally by an accredited translation service or a language professional, and must arrive on the professional letterhead of the translator.

Credit for previous study
If you have studied at another tertiary academic institution, you may be eligible for credit towards your degree at Macquarie University. This credit is called ‘credit for previous studies’ and is expressed in the form of Macquarie credit points. To request credit for previous study at Macquarie:

Your application for credit for previous study will be assessed only after you qualify for admission into the program of your choice.

Apply early!
Applications close one month prior to the commencement of classes. You can view commencement dates on page 3. Remember that places are limited in all programs, especially popular degrees. It is a good idea to apply at least two to three months before session begins, in order to avoid disappointment, and to give you enough time to organise your student visa.

Application fee
You will also need to submit a non-refundable payment with your application in order for it to be assessed. The online application fee is AU$55, and for postal applications AU$110. This application fee can be paid by international credit card online (visit www.international.mq.edu.au/mishop), or by bank draft or money order only.

How can I submit my application?
ONLINE
Using My Macquarie you can submit your application online at www.international.mq.edu.au/onlineapplication

BY POST
Complete the application form carefully and remember to attach all relevant documents, as instructed on the form. For your application to be processed without delays, it is very important that your form is complete and correct.

Please submit your application (both the completed form and all relevant and certified documents) by posting it to:
Macquarie University
Macquarie International Building E3A, Level 1
North Ryde NSW 2109
Australia

BY EMAIL
Scan all relevant documents and the application form attached to this guide, and send to iso@mq.edu.au

Or send your application through one of our registered representatives in your own country. To find a registered representative in your country visit www.international.mq.edu.au/representatives

You or your nominated representative will receive an email acknowledging receipt of your application after it is received by Macquarie University. You will be notified of the outcome of your application by email.

Step 4
Accept your offer
Your offer letter
If your application is successful, you will receive an offer letter as part of an ‘offer pack’, which contains instructions on how to accept your offer, information about Overseas Student Health Cover (OSHC) and Macquarie University’s tuition fee refund policy.

Remember to read all the information in your offer pack very carefully – it includes important information on what steps you need to take next to confirm your place at Macquarie University, and will state if your course has a non-standard commencement date.

Not all programs commence in the February and July intake. For further information, visit our calendar: www.international.mq.edu.au/study/calendar

Need help with English?
If you don’t meet Macquarie’s English language requirements, you may be given a ‘Package offer’. This offer will require you to complete an English course before you commence your Macquarie University program. Located on campus at Macquarie University, The Centre for Macquarie English (CME) offers discipline-specific English courses.
For information see page 62 or visit www.cme.mq.edu.au

To secure a place at Macquarie University, you must accept your offer by the deadline clearly stated in the offer letter, or the offer will lapse. Only after you accept your offer, and receive an electronic Confirmation of Enrolment (eCoE) from us, can you proceed with your visa application process.

To ACCEPT your offer and confirm your place, you need to:
1. Sign and return the ‘Acceptance of Offer’ page that is in your offer letter; and
2. Submit payment of your required commencement fee (as listed in your offer letter) and compulsory Overseas Student Health Cover
(OSHC) – see right for further information on these fees; and

3. Submit the completed Payment and electronic Confirmation of Enrolment Request form.

Please note:

1. The fees quoted in your offer are based on current rates for the next available intake. However, there may be some cases where offers are made for a future session and that session’s fees have not been officially set by Macquarie University at the time of offer. In these cases, you will be provided with estimated fees, and will be liable to pay the fees current at the time that you enrol. Tuition fees are subject to change with each academic year and students will be liable for any increases. For further details about fees, visit www.international.mq.edu.au/study/fees

2. Applicants from Assessment Level 3 and 4 countries must apply for a Pre-Visa Assessment (PVA) after receiving a letter of offer. These applicants must not send payment until they have received their PVA letter from the Australian Embassy. Upon receiving your PVA, please refer to your offer letter for the next steps to accept your offer. For more details on PVA visit the Department of Immigration and Citizenship (DIAC) website www.immi.gov.au/students

How to pay your Commencement and Overseas Student Health Cover (OSHC) fees

The offer letter lists information on a number of ways to pay your commencement and OSHC fees, two essential fees for entry to Macquarie University.

COMMENCEMENT FEE

The commencement fee is a portion of your tuition fee that you need to pay when you accept an offer to study at Macquarie University. The value of the commencement fee you need to pay will be listed on your offer letter. This commencement fee is applied to your first session tuition fees (it is not in addition to your tuition fees).

If your first session’s tuition fees are greater than your commencement fee, you will be required to pay the balance of your fees during your enrolment week.

OSHC FEES

If you will be residing in Australia on a student visa you will require OSHC for the duration of your visa. Students are free to choose their own OSHC provider, but Macquarie University’s preferred provider is OSHC Worldcare, who have arranged a special package and price for international students.

OSHC Worldcare

</tbody>
</table>

* Dual Family: Covers one student visa holder plus either one adult spouse or dependant children. Multi Family: Covers one student visa holder plus adult spouse and dependant children. Students need to pay the OSHC fee current for their year of enrolment (not the year in which they apply). For the latest pricing, and full details on these policies, please visit www.oshcworldcare.com.au

Apply for a student visa

Once Macquarie University has received your ‘Acceptance of Offer’ page, commencement fee payment, OSHC payment and electronic Confirmation of Enrolment (eCoE) request form, an electronic Confirmation of Enrolment (eCoE) will be issued.

You should then submit the eCoE to the Immigration Office in your nearest Australian overseas diplomatic mission (check www.immi.gov.au), with your application for a student visa. All student visas have mandatory conditions, including that you must remain enrolled, you cannot undertake work until you commence your studies and you cannot change institution within the first six calendar months of your program. To find out more about student visa conditions please refer to the Department of Immigration and Citizenship (DIAC) website www.immi.gov.au/students

Step 5

Prepare for your arrival to Macquarie University

Once you have accepted your offer, you should prepare for your arrival to Macquarie University. For important information on preparing for your arrival, visit www.international.mq.edu.au/predeparture

Compulsory orientation and enrolment sessions are held in the week prior to the commencement of classes. It is essential that you arrive in Australia in time to attend these sessions. To find out more about the orientation and enrolment program at Macquarie, visit www.international.mq.edu.au/orientation

Macquarie's accommodation service offers a range of accommodation options both on and off campus. You can even arrange to be picked up from the airport. To find out more about accommodation and airport pick-up, see page 12 or visit www.accommodation.mq.edu.au

We highly recommend that you check your unit selection and class timetable options prior to arrival. Check unit and timetable information online at www.handbook.mq.edu.au and www.timetables.mq.edu.au

WORKING IN AUSTRALIA

As an international student on a student visa in Australia, you can work up to 20 hours a week, and unlimited hours during university vacation periods. You and your dependent family members will already have Permission to Work automatically included with your visa. www.immi.gov.au
International application form

Complete this form if you are applying for a full-time course at Macquarie University, Sydney as an international student. A non-refundable application fee of AU$110 must be paid when you submit this form. Please complete all sections of the form clearly, using BLOCK LETTERS and a blue or black ballpoint pen.

Use this application form if:
- you are an international student applying for an undergraduate degree
- you are an international student applying for a postgraduate coursework degree (see exceptions at right)
Note: Additional forms are required for all postgraduate psychology degrees and are available at the website below.

For more information and other application forms visit www.international.mq.edu.au/help/application_forms

Section A: Your details

Have you previously applied to Macquarie University OR have you been a Macquarie University student?

No ☐ Yes ☐ If yes, student number:

Macquarie University will contact you by email, post, telephone and/or SMS, to provide you with information relevant to your application as well as relevant news, coming events, and enrolment and orientation activities. To avoid delays in processing your application, it is important that you complete ALL of your details including your email address.

Title: Mr Mrs Ms Miss Gender: Male ☐ Female ☐

Family Name: __________________________ Given Names: __________________________

Date of Birth: ___/___/____

E.g. 3 1 0 6 1 9 8 4

PLEASE NOTE: Your date of birth MUST be written with the day first, followed by the month and year.

Applicant home address (compulsory)
These are your permanent contact details in your home country. It is compulsory to complete ALL the fields below including your email, phone and mobile number.

Street address:

City:

Postcode:

Country:

Tel:

Mobile:

Email:

Country of citizenship: __________________________

Country of birth: __________________________

What is the main language spoken at home?

Do you already hold a current visa to enter and reside in Australia?

No ☐ Yes ☐ If yes, visa type: __________________________ Expiry date: __________________________

If you apply through a representative, you should ensure that your representative is registered with Macquarie University to avoid delays with your application. For details of representatives in your country visit www.international.mq.edu.au/representatives

Applicant contact address (if applicable)
These details must be different to the home country address provided to the left. If the same, please leave this section blank.

Street address:

City:

Postcode:

Country:

Tel:

Representative Stamp/Address:

Apply online for prioritised processing and an AU$55 application fee
www.international.mq.edu.au/onlineapplication

You will need a different form to apply for:
- Master of Applied Finance
- Master of Business Administration or other programs offered by the Macquarie Graduate School of Management (MGSM)
- Postgraduate research degrees
- Macquarie City Campus
- One-year Honours programs, Study Abroad, Exchange, Online, Distance or Offshore study programs
- Citizens of Australia or New Zealand, or holders of Australian permanent residency visas

Note: Additional forms are required for all postgraduate psychology degrees and are available at the website below.
Section B: Previous academic qualifications

In this section, you need to include details of your previous academic qualifications, including dates of completion or indication that you are yet to finish your study. Refer to the Macquarie University international student guide or check the Macquarie International website www.international.mq.edu.au for course requirements or prerequisites. Certified copies and official translations of academic transcripts must be attached to this application. Visit www.international.mq.edu.au/certify to check who can certify and translate your documents.

Please list most recent qualifications first (including courses that you are yet to complete)

Section C: English language proficiency

Macquarie University has minimum English proficiency requirements and some courses have higher English proficiency requirements. Please attach evidence of your English language proficiency if required.

If you do not meet the English proficiency requirements, you may be eligible for a Package Offer, which includes an appropriate amount of English study at the Centre for Macquarie English (or another approved ELICOS provider) before you start your degree program.

For more information on English requirements or English pathway programs, visit www.international.mq.edu.au/applications/apply/english

Section D: Degree preferences

Before completing this section, you should refer to the Macquarie University international student guide or check the Macquarie International website www.international.mq.edu.au/study for degree names, codes, locations and commencement dates. Choose three degrees you would like to study and list them in order of preference (your first choice should be placed first). If you do not meet the entry requirements for your first preference, you will be considered for your second and then third preferences.

Section E: Credit for previous study
If you have studied at another academic institution, you may be eligible for credit towards your degree at Macquarie University.

To request credit for previous study or credit transfer, you will need to provide documentary evidence of your current or previous studies. Certified copies and official translations of relevant documents must be attached to this application. For more information on credit for previous study, please visit www.international.mq.edu.au/cps

Are you seeking credit for previous studies? No ☐ Yes ☐

Your letter of offer will contain further information on general credit for previous study and course exemptions.

Section F: Employment history (for postgraduate applicants where applicable)
In this section, you should provide details of any work experience that is relevant to your application. Refer to the Macquarie University international student guide or the Macquarie International website www.international.mq.edu.au/study to check if your course has specific work experience requirements.

Section I: Privacy and student declaration

Privacy and Right to Information
Macquarie University is subject to the Privacy and Personal Information Protection Act PIPPA 1998 (NSW). For more information on Macquarie University’s Privacy Management Plan and Code of Practice please refer to www.international.mq.edu.au/privacy.

Declaration
By signing this application form, I declare that:
I wish to be considered for enrolment as an international student in a course at Macquarie University and declare that the information submitted is correct and complete. I understand the University may obtain official records from any school, university or other tertiary institution previously attended by me for the purpose of verification of my supporting documents. All documents submitted become the property of the University and will not be returned. I understand that the University reserves the right to vary or reverse any decision made on the basis of incorrect or incomplete information or fraudulent documentation. I recognise that it is an offence to submit fraudulent documentation in support of an application for the purpose of gaining admission to the University. Where fraudulent documents are detected, I understand that my application will be rejected. If an offer has been made, it will be withdrawn. If a visa has been issued, the Department of Immigration and Citizenship (DIAC) will be notified. All matters concerning fraudulent documentation will be reported to the relevant Government and statutory authorities, including NSW Police, Department of Immigration and Citizenship (DIAC) and Independent Committee Against Corruption (ICAC). I authorise the University to release any personal information held about me to any other educational institution or authority to verify my student conduct, academic record or supporting documentation for the purpose of determining my eligibility for admission to the University. I herewith give the University permission to provide my address and details of enrolment to the Department of Immigration and Citizenship (DIAC) and the Department of Education, Employment and Workplace Relations (DEEWR), should I enrol at Macquarie University. I understand that it is an offence to submit fraudulent documentation in support of an application for the purpose of gaining admission to the University. Where fraudulent documents are detected, I understand that my application will be rejected. If an offer has been made, it will be withdrawn. If a visa has been issued, the Department of Immigration and Citizenship (DIAC) will be notified. All matters concerning fraudulent documentation will be reported to the relevant Government and statutory authorities, including NSW Police, Department of Immigration and Citizenship (DIAC) and Independent Committee Against Corruption (ICAC). I authorise the University to release any personal information held about me to any other educational institution or authority to verify my student conduct, academic record or supporting documentation for the purpose of determining my eligibility for admission to the University. I understand that it is an offence to submit fraudulent documentation in support of an application for the purpose of gaining admission to the University. Where fraudulent documents are detected, I understand that my application will be rejected. If an offer has been made, it will be withdrawn. If a visa has been issued, the Department of Immigration and Citizenship (DIAC) will be notified. All matters concerning fraudulent documentation will be reported to the relevant Government and statutory authorities, including NSW Police, Department of Immigration and Citizenship (DIAC) and Independent Committee Against Corruption (ICAC). I authorise the University to release any personal information held about me to any other educational institution or authority to verify my student conduct, academic record or supporting documentation for the purpose of determining my eligibility for admission to the University. I have read and understood the University’s tuition fee refund policy and conditions set out at www.international.mq.edu.au/study/fees.

I agree to comply with Macquarie University’s rules of admission and enrolment. I agree to tell the University immediately if there is any change to the information I have given in this application.

Please complete the following checklist before submitting

Please tick each box to indicate that each item has been completed, or attached, as appropriate:

☐ Attach certified copies or original evidence of all academic qualifications, including transcripts and graduation certificates (Section B)
☐ Attach certified copies or original evidence of English language proficiency (Section C)
☐ Attach certified copy of passport
☐ If necessary, attach any other additional information or portfolios (see the entry requirements for the degree you are applying for)
☐ Pay application fee AU$110 (Section G)
☐ Sign declaration on the application form

Signature [X] Date [ ] [ ] [ ] [ ] [ ] [ ] [ ]

Unsigned applications will NOT be processed. Applications must be signed by the applicant personally. Third parties must not sign on the applicant’s behalf.

Send your application to:
Macquarie International
Macquarie University
Building E3A, Level 1
NORTH RYDE NSW 2109, AUSTRALIA
Tel: +61 2 9850 7346
Fax: +61 2 9850 7733
Email: iso@mq.edu.au

When will you know?
Applications are processed continually throughout the year and processing times may vary depending on the program applied for. You (or your representative) will receive an acknowledgment of your application once assessment has commenced. The email address you provide on this application (or that of your representative) will be used for all correspondence including requests for any further information we may need and the outcome of the application assessment.

Macquarie University staff comments
Useful terminology

**Award** A degree, diploma, associate diploma or certificate of the University granted at the completion of a course of study.

**Capstone unit** A final year unit of study in an undergraduate degree program which integrates the material presented across a major or program of study.

**Credit point** Each unit of study is worth a specified number of credit points. The credit point value of a unit reflects the amount of work required in the unit. Each credit point in a half-year unit would indicate that you should expect to spend about three hours each week on that unit (including class contact hours). Therefore, a three-credit point subject would equate to nine hours of study per week.

**Degree** The first degree a student enrolls for is a bachelor degree. Most Australian bachelor degrees take three years of full-time study to complete. An Honours degree is awarded to meritiorious students who have completed an extra year of full-time study following their bachelor degree. A higher degree or postgraduate degree is undertaken by those who have already completed a bachelor degree or bachelor with Honours degree.

**Faculties** For academic purposes, Macquarie University is structured by faculties, which are: Faculty of Arts, Faculty of Business and Economics, Faculty of Human Sciences and Faculty of Science.

**Gateway unit** A gateway unit is designed to provide students who do not have a business related undergraduate degree with the requisite knowledge to undertake postgraduate study in that area.

**Grade Point Average (GPA)** A calculation that reflects the overall quality of a student’s grades throughout their course, and is printed on their academic record. The GPA is a calculation out of four, i.e the highest GPA that can be achieved is 4.0. A GPA of 4.0 would indicate that a student’s grades are Distinction or High Distinction.

**Honours** An honours year is usually completed at the conclusion of a bachelor degree program. A high level of achievement is usually considered necessary before being invited to complete an honours year.

**Major** The area of study you choose to specialise in. Your major will be reflected on your testamur. In many degrees there will be provision to fit in two majors. You can also complete a minor.

**Minor** Approximately half the workload of a major. Minors will not be reflected on your testamur, but will be reflected on your transcript.

**Offer letters**

- **Full Offer** This provides you with a full offer of admission, and allows entry in the next available intake for the program you have selected. No further conditions need to be satisfied. Sometimes alternative programs are suggested if you do not meet entry requirements of the program/s that you applied for.

- **Conditional Offer** This offer outlines the conditions that must be satisfied in order for you to be offered a place in your selected program. Evidence must be shown that you have met the conditions before a full offer can be issued. Macquarie University will also confirm quotas on the selected program before a full offer can be made.

**Package Offer** This offer requires that you complete an English language program or another preliminary program and achieve a required result before commencing your degree. You must accept the entire package by the deadline stated in the offer letter. Please note: if you choose to re-take an English test and meet the Macquarie University English language requirements you will need to re-submit your test. Macquarie University will issue a FULL offer provided places are till available.

**Postgraduate** Any course of academic study higher than a bachelor degree is a postgraduate course. A student of such a course is a postgraduate student.

**Prerequisite** A unit of study that must be completed, or a requirement which must be satisfied, before a student is able to enrol in a particular unit.

**Session** One of three periods of study within the academic year.

**Testamur** The official document with the University’s seal on it that certifies that you have been awarded your degree or diploma.

**Transcript** The official and certified version of your academic record. This is the copy you would show to prospective employers or to other educational institutions.

**Undergraduate** Undergraduate education is postsecondary education up to the level of a bachelor degree.

**Unit of Study** A program of study is made up of a number of units of study (generally referred to as units and informally called subjects).

For more useful terminology, visit our online glossary: www.international.mq.edu.au/help/glossary
Macquarie University has one of the most generous scholarship programs in Australia, with 100 full and partial scholarships available each year for undergraduate and postgraduate international students.

**Macquarie University International Scholarship (MUIS)**

**Full scholarship**

The MUIS provides a tuition fee scholarship for outstanding students from around the world to study at Macquarie University. The MUIS is highly competitive and is awarded based on academic merit.

**MUIS Merit – partial scholarship**

The MUIS Merit Scholarship provides a partial tuition-fee scholarship for outstanding students around the world to study at Macquarie University. MUIS Merit rewards academic excellence of students from a range of countries.

The MUIS Merit Scholarships are allocated on a monthly basis before commencement of each session.

**How to apply**

1. Apply for your desired course of study at Macquarie University.
2. Note the eligibility requirements for the MUIS/MUIS Merit, listed at [www.international.mq.edu.au/scholarships/muis](http://www.international.mq.edu.au/scholarships/muis)
3. Use your student number to apply for the MUIS/MUIS Merit using the online application form: [www.international.mq.edu.au/scholarships/applications/scholarshipapplication](http://www.international.mq.edu.au/scholarships/applications/scholarshipapplication)

If you will be applying for admission to Macquarie University via UAC in Semester 2, please email scholarships@mq.edu.au

**Australian Government Scholarships**

Macquarie University participates in Australian Government Scholarship programs such as the Australian Development Scholarships (ADS), the Australian Leadership Awards (ALA), Endeavour and Defence Cooperation Scholarship Program.

For more information, see [www.international.mq.edu.au/scholarships/govt](http://www.international.mq.edu.au/scholarships/govt)

**Other scholarships**

For other scholarship opportunities, including sports scholarships and country specific scholarships, visit the weblink below or email scholarships@mq.edu.au

"Few students in my home country have the opportunity to study overseas, so I am one of the very fortunate ones who get to learn from the best and experience a totally different environment. Without the Macquarie University International Scholarship I wouldn’t be here, so it’s definitely been a fantastic opportunity for me and I feel really lucky"
